■ Background

First U.S. Finance LLC is an equipment financing company located in Southern California with its origins in the semiconductor market and remains primarily a technology-based lender. We are dedicated to providing equipment leasing and financing programs to meet the expansion and cost reduction goals of companies, municipalities and non-profit groups throughout the United States. Supported by our expert underwriting team, (quail underwriters CA Lic. #6036964), we are able to work with every customer to provide the best terms and structure for their acquisition.

■ Base Services

Commercial Equipment Financing, Leasing & Loans

We offer equipment financing, leasing and loan programs from \$20,000 to multi-million dollar projects with standard terms from 2 to 7 years. Capital Finances and Loans, with ownership at the end of the term, or Operating Leases, where the equipment can be returned, are available. Financing can also be structured with a 10% or 20% buyout at the end along with customized payment plans. Master Leases can be organized to include multiple vendors for larger projects which are completed in several phases.

Vendor Programs

We offer Special Vendor Programs to companies that sell their products to other businesses (B2B). We partner to become their in-house finance department, which allows them to offer finance options with each proposal. Branded forms and training is available. Offering credit terms increases the individual sale amount and overall sales of all products immediately and substantially; it's a win-win situation!

Municipal Financing, Special Project & Asset-Based Financing

We offer financing for all Green Tech projects such as Solar energy, LED lighting and custom industrial equipment. Our Municipal Leases, for public/government entities involved with local city projects, has terms from 12, 15 and up to 20 years. We also can implement asset-based financing and merchant loans for working capital and lines of credit.
