## Background

First US Finance was formed in 2010 and is an inspired commercial equipment financing company designed to fill the gap left by commercial lenders by making capital more easily available for all types of businesses and equipment. We offer equipment financing, commercial loans, project financing, collateral loans, start-up financing and equipment finance agreements for all size companies throughout the United States. We approve them more efficiently than traditional lenders with no upfront fees nor large deposits. Our process requires minimal paperwork while offering streamlined credit review for fast results. We provide personalized service tailored to your needs along with a variety of lending solutions to meet all business expansion goals.

## Core Services

### Commercial Equipment Financing, Capital Leases & Loans

We offer equipment financing and loans from \$10,000 to multi-million-dollar projects with standard terms of 3 to 7 years. We provide capital finance leases and loans, with complete ownership at the end of the term. Project financing can be made to include multiple vendors for projects built in several phases.

### Vendor & Distributor Programs

We provide tailored vendor and distributor programs to companies selling their products to other businesses (B2B). We partner to become a virtual in-house finance department, allowing vendors to offer finance options with each proposal. The program includes branded forms and training. By offering credit terms to the buyer, the vendor's profit increases greatly while providing a complete solution for their client.

### Special Projects and Asset-Based Financing including PPAs and Aircraft Finance

We specialize in financing all energy systems like solar, battery production and LED lighting equipment with terms from 3 - 7 years at competitive rates. Our aircraft finance loans provide 5 – 20-year terms with low rates for commercial use within the U.S.

## Typical Equipment & Projects Financed

Construction Equipment  
Industrial Machines  
Commercial Solar  
Medical Equipment  
Commercial Real Estate
